

RAVEN'S "GRYPHON GROUP SHOOTING SPORTS"

ravenadvisory.com

- Competition Shooting -

Gryphon Group Shooting Sports is a Premier Shooting Program. Our mission is to provide events where the Tactical Professional, Competition Shooter and Firearms Enthusiast can test their skills and abilities in a safe and controlled environment. Our competitions encompass multiple firearm disciplines that give our athletes the ability to hone their skills on multiple platforms.

Gryphon Group Shooting Sports is the home of two nationally known multi-gun events: Memorial 3-Gun and Battle for the South 3-Gun. Our reputation and professionalism in designing and executing challenging competitions has attracted civilians, law enforcement, and military shooters from across the nation.

The Night Match Series

Gryphon Group Shooting Sports Methodology / Spirit of the Games – Our events are designed to be more of a training event that allows the athlete to test themselves and their equipment, than it is a competition. We advocate “Knowledge Distribution;” if you see someone having trouble with a certain task or skill and you have a solution, help them. Coaching and cheering for fellow athletes is not only allowed but encouraged. One of the unique facets of our organization is that we provide competent mentoring for new shooters. We are believers in the fact that the future of competitive shooting sports relies heavily on the coaching and mentoring of the new shooter.

Precision Long Range Shooting Training & Competitions
