Current Class III SOT Stamp

Vision & Mission

Our vision is to operate the best military training business in America...period!

Because the product we sell can mean the difference between life & death of America's War-Fighters, our aspirations must be consistent with the highest standards we can achieve and be coupled to the ideals of patriotism and self-less service to our nation.

Money is a bi-product of what we do--it is not what we live for.

As top-level combat trainers, we are determined to be the very best in our business, regardless of the size, pedigree, or wealth of our competitors. **In our minds, we have no competition.**

The motto under Gryphon's crest is "**Murum Aries Attigit**"

(The Ram has Touched the Wall!), which comes from Julius Caesar's first-hand account of the Gallic Wars, *Commentaries on the Gallic War*. It refers to the roman army concept of not allowing any mercy or surrender to the occupants of a fortification once the battering ram begins the assault on the city walls.

In other words, **"total commitment"** where failure is not an option!

As a company of patriots, we have one rule: Say what you mean, mean what you say...and, work hard for our nation's guardians of freedom, regardless of who is or isn't watching!

The men & women of Gryphon Group are totally committed to our mission. We are determined to bring a new standard of excellence to our industry with cutting-edge approaches to increasing survivability & effectiveness of the American Warfighters we train.

Above all, we expect to be a credit to the communities we serve, a valuable resource to our nation, and a place where our Cadre members can grow and prosper while being guided by a strong moral & ethical compass.

Toward this end, we will not fail.

Gryphon Group trains men & women serving our nation in harm's way. They are not just a list of customers, they are our national treasures. These heroes should not, and will not, ever be viewed by Gryphon as just potential profit. This game is not "Coke versus Pepsi", this is American blood. Every member of Gryphon's cadre understands this.

Our history has demonstrated that a company can have this type of moral & ethical compass and still be successful. It is difficult and it is precarious, but our mission is worth the cost -- American Warfighters coming home safe to their families after a successful mission!
